

My landscape

- Can you challenge yourself and create a scaled down landscape in your garden or outside space with physical features such as cliffs, rivers, mountains, forests etc. Label the features with descriptive language such a 'wild river' or 'steep cliff'.
- Can you plan a route through your landscape for a character? Create a paper map of the landscape and include a key to show the main features. Watch this [video](#) for an example.
- **Time for some Literacy!** Can you do some fun writing to describe your character's journey including directions and description of the landscape your character is passing through? You might like your character to travel through a village or town to include more detail.

What if...

You were asked to represent a space using a collection of items in your home. Use two egg boxes to collect items to represent your garden and home. How are the sets of items different?
