

Parkside Primary Design & Technology Newsletter

Friday 14th March 2025

Dear Parents/Carers,

Our children have shown incredible enthusiasm and dedication to their learning in Design and Technology this year. They have explored, researched, designed, created, and evaluated a variety of exciting projects within their year groups. This newsletter is a celebration of their hard work and creativity, showcasing some of the fantastic designs and inventions they have brought to life. We hope you enjoy seeing their amazing efforts!

Mrs Banks
DT Coordinator

Year 1

Our Year 1 children designed and created fantastic moving posters to help younger children learn how to protect our oceans. Their hard work and creativity shine through in every piece!

Year 2

Our Year 2 children designed and created wonderful sock puppets, bringing laughter and fun to their comedy performances for friends. Their creativity and storytelling skills were truly inspiring!

Year 3 put in fantastic effort to design and build a range of moving vehicles, and the results are truly impressive! Our Reception children had great fun testing them out in action.

Year 3

Year 4

Year 4 put great effort into developing their French knitting skills, creating beautiful and vibrant designs. Their colourful creations not only look fantastic but also serve as comforting items for babies. Well done, Year 4!

Year 5 created a delicious and healthy bolognese sauce for a family celebration. Their cooking skills and thoughtful approach to nutrition were truly impressive!

Year 5

The Year 6 students are currently creating and designing a playground model to inspire new ideas for our playground. The designs look amazing!

Year 6
